

# Louisiana Seed Mixes by Ecoregions

What seed mix should I buy? Great question! The following mixes have been designed by “ecoregion”, which help biologists decipher what species go in the mixes. Pinpoint where your land is, match up the color, and purchase the seed from your choice of native seed vendor. If there is not mix for your area, please contact your local biologist or NRCS office.

Piney Hills Mix

Southeastern Plains Mix

Coastal Prairies Mix

Mississippi Loess Hills/Bluff Mix

Mississippi Delta Mix

Southern Coastal Plains Mix
