

Conservation Cover (327) SPECIFICATION SHEET					
Name: <u>WA PF Grazed Pasture Mix</u>		Date: <u>May 4, 2020</u>		Precip: <u><12"</u>	
Location: _____		Soil(s): <u>Saline</u>		Acres: <u>1</u>	
Tract: _____		Field: _____		Slope: _____	
				Elevation: _____	
Planned by: <u>Pheasants Forever</u>			Erosion Potential: _____		
MLRA: _____		Ecological Site: _____			
Purpose(s): _____ <u>Provide or improve forage, browse or cover for wildlife.</u> <u>Reduce erosion by wind and/or water.</u>				Livestock: _____	
				Wildlife: _____	
DWR Consultation: _____		If Yes, Who with & When: _____			
Seedbed Preparation:					
Firm weed free seed bed should be prepared prior to seeding. Best if ground is not worked after last chemical treatment of weeds, often times working the ground again will bring additional weed seeds to the surface.					
Planting Information					
Date: <u>Oct 15 - Feb 25</u> Depth: <u>1/8-1/4 inch</u> Spacing: <u>8 inches</u> Method: <u>Drill</u> Equipment: <u>Double Disk Drill</u>	Species	Variety	PLS Rate (lbs/ac)	Bulk Rate (lbs/ac)	Total PLS Seed (lbs)
	Wheatgrass, Siberian		1.80	2.23	2
	Wheatgrass, crested		1.00	1.24	1
	Wheatgrass, slender		2.40	3.14	2
	Sweetclover, yellow		0.20	0.24	0
	Kochia, Forage		0.20	0.20	0
	Sweetclover, white		0.20	0.24	0
	*Total Rate to be Seeded:		5.80	7.28	6
	Lbs of No.1 rice hulls needed to make 1 bushel per acre volume			6.32	6
Management During Plant Establishment					
Defer grazing for at least two growing seasons or until stand is established.					
Operation and Maintenance of Seeding After Establishment					
Grazing should be in accordance with Prescribed Grazing (528) specifications. Weeds, insects, and/or diseases should be controlled through mowing, burning, flash grazing, or pesticides as needed to maintain a healthy stand. Where stands are damaged by drought, insects, or other uncontrollable events, the stand should be replanted, overseeded, or spot planted. Thin stands may only need grazing deferment during the growing season rather than replanting.					

Client's Acknowledgement Statement

The Client acknowledges that:

- a. They have received a copy of the specification and understand the contents and requirements.
- b. It shall be the responsibility of the client to obtain all necessary permits and/or rights, and to comply with all ordinances and laws pertaining to the application of this practice.

Certification

I have completed a review of the information provided by the client (or checked in the field) and certify this practice has

Document or refer to attachment for each item below

Seedbed preparation techniques (weed control, equipment used, number of passes and method used)

Seeding date, depth, rate (PLS) and method

Plant species or mixture used (copy of the seed tag(s)) within 20% less to 25% more of the recommended rate

Seedbed and growing conditions at planting (soil moisture, soil firmness, weather etc.)

Map indicating acres treated
