Name: ND PF CRP 1 Acres: 1 Tract / Field: _____ Date: _____

Address: _____ Planned Use: CRP Design By: Pheasants Forever

County: Adams MLRA 54 Ecological Site: _____ OR Forage Suitability Group: _____

Program: _____ Contract Number: _____ CIN: _____

SEEDBED PREPARATION: Companion Crop, If used: _____
 Crop _____ Rate _____ Seeding Method Grass Planned Seeding Date: _____
 _____ Lbs./Acre Date Seeding Completed: _____

NOTE: Some agricultural herbicides used have moderate to strong persistence in the soil and some herbicides do inhibit grass and/or legume germination and growth. If use of these herbicide(s) is known or suspected, be sure to check with the local county agent or consult the current NDSU-Extension Service Weed Control Guide for information on possible planting restrictions.

Seedbed Preparation & Seeding Operation Performed: _____

WEED CONTROL: _____

ADDITIONAL REMARKS: _____

For additional design information, refer to the Herbaceous Vegetation Establishment Guide found in eField Office Technical Guide, Section I, Reference Subjects.

CERTIFICATION:

<input type="checkbox"/>	Is the germ test date for all species within 12 months of when it was planted (not including the month of the test)?	This practice meets FOTG Standards and Specifications: _____ _____	0% Total PLS seeded (column 11) will be within +/- 10% of planned PLS (column 7).
<input type="checkbox"/>	Are the seeded species approved named varieties? If not, is the Origin within the states listed in the spec?		
<input type="checkbox"/>	Was the planting completed in the required seeding window? Enter date planting completed above.		
<input type="checkbox"/>	Does the seeded mix match what was planned? If not, are species seeded suited for site and meet specs?
